

UNVEILING THE MULTI-TOUCH SCREEN TECHNOLOGY AT BROADCAST ASIA 2009

The Multi-Touch G² (technology from PQ Labs) was launched recently at our exhibition booth during Broadcast Asia 2009 held between 16 -19 June. As the sole distributor in Singapore, Ascend is now able to integrate this new product into our existing list of inventories, bringing to our customers more creative solutions!

Multi-Touch is not just about multiple fingers. It's all about human-computer interaction in the most interactive way.

Product Benefits

Simplicity - Just plug and place it over an LCD or Plasma monitor, and it's all ready to be explored.

Cost Effective - Your customers can interact with your company and gather product / service information at a comfortable pace, thus decreasing staffing needs. It can also easily integrated into your current hardware, which means substantial cost savings.

Reliability - Full technical support provided by Ascend, from installation, usage guidance to maintenance.

Who is it for?

It can be used in conferences, exhibitions, offices, restaurants, retail outlets, showrooms, basically anywhere!
